Members are further reminded that on February 9, 2021 and February 12, 2021, respectively, the Leaders of the House of Representatives and the Senate, moved:

BE IT RESOLVED, with reference to the Sessional Select, Joint Select and Select Committee which are appointed in the current Session of Parliament, and where these Committees have not completed their deliberations, that in the new Session of Parliament both Houses be empowered to enable these Committees to proceed with the issues referred to them from the stage reached before prorogation:

BE IT FURTHER RESOLVED that the composition of all these committees remain unchanged except, where necessary, by further motion taken and approved by the Houses of Representatives and the Senate, respectively:

AND BE IT FURTHER RESOLVED, with reference to the matters identified below, which are included in the Order of Business in this Session of Parliament but for which deliberations have not been completed, that in the new Session of Parliament, both Houses be empowered to proceed with them from the stage reached before prorogation:

1. Item 1 under Government Business, “The Protected Disclosure (Amendment of First Schedule) Order, 2021”; and
2. All matters referred to Committees.

Overall, your Committee held thirty-one (31) meetings to deliberate on the Bill shortly entitled, “*The National Identification and Registration Act, 2020*” which commenced during the 2019/2020 Parliamentary Session on December 18, 2020 (see Appendix I). We agreed at our first meeting that stakeholders and the wider public would be given an opportunity to make submissions on the Bill. In that regard, we wrote to a number of organisations and published public notices in the Jamaica Observer and the Gleaner on December 23, 2020, inviting written submissions from individuals and organisations (see Appendix IIa). Subsequently, we received submissions and oral presentations as indicated at Appendix IIb.

Technical teams were present from the Office of the Prime Minister/National Identification System Secretariat; Office of the Parliamentary Counsel; Attorney-General's Chambers; and Legal Reform Department.

2. OVERVIEW

The Memorandum of Objects and Reasons of the Bill shortly entitled "*The National Identification and Registration Act, 2020*" seeks to give effect to the decision taken to provide a legal framework for a National Identification System that provides safe, reliable and robust verification and authentication of identity information for citizens of Jamaica and persons ordinarily resident in Jamaica, thereby allowing for the strengthening of identity security, cyber security, and the simplification of bureaucracy. This legislative framework will— (a) establish a National Identification and Registration Authority having responsibility for civil registration and national identification; (b) provide for the enrolment of citizens, and individuals who are ordinarily resident in Jamaica, in the National Databases comprised in the National Identification System; (c) establish databases to be known as the National Databases, consisting of – (i) Civil Registration Databases comprising all information collected for civil registration by the Registrar-General; and (ii) National Identification Databases comprising all identity information collected by the National Identification and Registration Authority; (d) provide for the characteristics, assignment and use of a unique National Identification Number to be assigned to each enrolled individual; (e) provide for the issue of a National Identification Card to each enrolled individual; and (f) provide for the discharge of the statutory functions of the Registrar General by an office established within the Authority, under the oversight of the Authority and to make consequential amendments to the Registration (Births and Deaths) Act, accordingly.

3. FINDINGS AND RECOMMENDATIONS

Your Committee after reviewing the Bill extensively now has the honour of presenting its findings and recommendations.

Part I - Preliminary

Clause 1 - Short title and commencement

Your Committee notes the proposal that clause 1 does not stipulate the date on which "*The National Identification and Registration Act, 2020*" would come into operation and in respect of different provisions of the Act, it would be desirable for the Act to be operationalized after the implementation of the *Data Protection Act, 2020*. ***We agree and recommend that "The National Identification and Registration Act, 2020" be put into force only after the implementation of the Data Protection Act but note that the commencement date is an administrative decision. We also agree with the recommendation that an amendment be made to the Data Protection Act to exclude the Authority from the moratorium in section 76 of that Act.***

Clause 2 – Interpretation

Your Committee does not agree with the proposal to change the definition of the term “identity information”, as the existing definition captures the intent of the policy.

Your Committee notes but does not agree with the proposals made by a number of organizations for a definition of the term “accredited third party”.

Your Committee does not agree with the proposal for a definition of the term ‘facial image’.

Your Committee recommends that the term “personal data” be defined in accordance with the Data Protection Act due to the recommended amendment of the Objects Clause.

Clause 3 – Objects

Your Committee recommends and agrees to amend clause 3 to provide that the objects of the Act are to provide for a system of national identification, the administration of the civil registration system in conformity with the laws applicable to civil registration and the protection of identity information and other personal data.

Clause 4 – Application

Your Committee notes but does not agree with the request to clarify the definition of the term “citizen”, as it would be defined within the citizenship framework of Jamaica, that is, by birth, naturalization, descent and would include dual citizens. *Your Committee does not accept the proposal that the term “citizen” needs to be defined.*

Your Committee notes the proposal to replace the term “ordinarily resident” with the term “resident”; *however, your Committee does not accept the proposal and agrees to retain the term “ordinarily resident”.*

Your Committee notes that the Bill in its current form may serve to allow persons who have not been granted a legal stay in Jamaica to enrol in the System. *Your Committee recommends that the Bill be amended to ensure that only persons who are legally resident in Jamaica be allowed to enrol in the System.*

Your Committee notes the query as to “what would occur when a person is no longer ordinarily resident and whether this eventuality should be addressed in the legislation”. *Your Committee does not agree that the matter needs to be addressed.*

Your Committee recommends that clause 4(2) should be modified to clearly indicate that citizens who are entitled to immunities and privileges under the Diplomatic Immunities and Privileges Act are entitled to enrol.

Your Committee notes the queries regarding the necessity of clause 4(3) which states that persons entitled to immunities and privileges under the *Diplomatic Immunities and Privileges Act* and who are not eligible for enrolment, are entitled to be provided with their information stored in the National Identification Databases, as well as records of verification requests. *Your Committee recommends that the clause remain as is, as every individual, whether enrolled or not, is entitled to receive such information.*

Part II – The National Identification and Registration Authority

Clause 5 - The National Identification and Registration Authority

Clause 6 - Board of Management

In respect to clauses 5 and 6, your Committee notes the concerns regarding the governance structure as it relates to the duties, rights and responsibilities of the different administrative roles and the size of Board of Management. *Your Committee recommends that the governance structure be amended to provide for the Authority to be established as a body corporate administered by the members of the Authority. The Chief Executive Officer would be replaced by an Executive Director who would be responsible for the day-to-day operations of the Authority, as well as be directed by, report to and be evaluated by, the Authority.*

Clause 7 - Ministerial directions

Your Committee notes the proposal to remove clause 7 in order to ensure that the Minister is not imbued with too much power and to provide for a clear reporting framework between the Authority to the Minister or the Parliament. *Your Committee does not accept the proposal and recommends that the clause remain as is.*

Clause 8 - Co-operation between the Authority and public bodies.

Your Committee notes the observation that there is need for further clarity on the definition and scope of “cooperation” in clause 8(2). *Your Committee does not agree that amendment is necessary, as no identity information would be shared between the Authority and public bodies, and cooperation would be purely operational and administrative.*

Your Committee does not accept the proposal to substitute the term “collaborate” for the term “cooperate”.

Part III – The National Identification Databases and the Civil Registration Databases

Clause 9 - National databases.

Your Committee notes the proposals regarding the security of the National Databases and limitations on the nature of data to be shared by way of the unique identifier. *Your Committee does not agree with the proposals, and recommends that the clause should remain as is. Clauses 3, 5, 6, 23, 27 and 30 of the Bill sufficiently outline the information security features embedded in the framework, as well as the security requirements to be observed by the Authority in performing its functions. Additionally, the Authority will be required to observe the constitutionally protected right to privacy of individuals and the Data Protection Act.*

In relation to clause 9(4), *your Committee accepts the recommendation to specifically require that identity information should be anonymized by the Authority in appropriate circumstances. Your Committee notes that this is a higher level of security than that required under the Data Protection Act.*

Clause 9 - National databases cont'd.

Your Committee notes the recommendations to limit the alteration of a person's sex as stated on their birth certificate; to restrict requests of data alteration to the data owner; and that this be indicated as such in the Bill. *Your Committee does not accept these recommendations, as the sex identity information to be included will be as recorded on the birth certificate of the enrolled individual; and agrees that the clause 9(6) should remain as is.*

Your Committee notes the observation regarding the interaction of clauses 9(6), 9(7) and 9(8) that these clauses were incongruous as on the one hand the information within the National Databases may be altered, and on the other, an offence is created where same is altered. *Your Committee does not accept the observation that the clauses are incongruous as the actions taken at clause 9(7) would have resulted from the requests made for such actions pursuant to clause 9(6). Therefore, these actions would have been undertaken with lawful Authority and would not constitute an offence under clause 9(8).*

Your Committee notes the query in relation to the offence regimes at clauses 9 and the proposal to indicate whether the reference to "Circuit Court" means trial by judge alone or by jury. *Your Committee assessed the offences in clause 9 and recommends the following changes:*

- *clause 9(8) - the offence should also be at the Parish Court level with penalties of a fine up to \$3M and a term of imprisonment up to 3 years or both. It was also specified that the offence was triable in the Circuit Court by a judge alone; and*
- *clause 9(10) - the offence should also attract imprisonment up to three years or both fine and imprisonment. At the Circuit Court level, the offence should be tried by a judge alone.*

Your Committee notes the query in relation to the meaning of the term "lawful authority" and the creation of offences in clause 9. *Your Committee does not agree with the observation that there is need for further clarity on the meaning of the term "lawful authority", as clause 9(2) defines the context within which the offence is established.*

In relation to clause 9(11), your Committee notes the proposal for the term "function" to be construed in accordance with the said term in *the Cybercrimes Act*. *Your Committee accepts this proposal and recommends that the Bill be amended accordingly.*

Your Committee notes the recommendations that the term "in writing" be defined as it was not clear whether it included electronic format. *Your Committee does not accept the proposal, as section 7 of the Electronic Transactions Act indicates that "writing" includes electronic formats. We agree that the clause should remain as is.*

Your Committee notes the query regarding the validity of existing civil documents after the institution of the new Civil Registration Database. *We agree that no change is necessary, as the law that provides for those civil documents remains unchanged.*

Clause 10 – Enrolment.

Your Committee notes the recommendation for the Authority to be required to inform applicants upon enrolment that there is no guarantee for the deletion of their identity information should they choose to cancel their enrolment. *Your Committee accepts the recommendation and agrees that clause 10(2)(b)(ii) should be amended to expressly mandate the Authority to inform an individual upon enrolment that the individual's identity information may be retained to assist in the prevention of identity theft and fraud as required by Jamaican law.*

Your Committee notes the recommendation to amend clause 10(2) to allow for arrangements prescribed for enrolment to ensure that the National Identification System is accessible to persons with disabilities. *Your Committee does not accept the recommendation, as clause 5(7) already requires that the Authority take the Disabilities Act into account in the performance of its functions.*

Your Committee accepts the recommendation to amend clause 10(3)(b) by removing the words "insofar as is reasonably possible for that information to be verified".

In relation to clause 10(4):

- your Committee notes the recommendation that persons purporting to act on behalf of someone who is unable to act for himself due to mental disorder under *the Mental Health Act*, should possess a Court Order affirming the authority to act on that person's behalf in order to protect such persons from being susceptible to fraud. We also note the recommendation to limit the scope of guardianship for those applicants under the age of eighteen years by inserting the word "legal" before the word "guardian". *We do not accept the recommendations, as such requirement may result in many persons not being able to enrol.*
- your Committee notes and *agrees with the recommendation to amend clause 10(4) to make provision for the inclusion of individuals who may otherwise be unable to enrol due to their circumstances. These individuals include the elderly, persons who are physically infirm and persons with disabilities. Amendment to the Bill would not be necessary as the details of this framework would be outlined in the regulations.*

Your Committee notes the observation that the word "inmate" does not include children in correctional institutions and *recommends that clause 10(5) be amended accordingly to ensure that this group is included.*

Your Committee does not accept the recommendation to insert words to ensure that persons who do not enrol in the National Identification System are still able to access goods and services while using the existing forms of identification where identification is required, as there are no provisions in the Bill that limit such access.

Your Committee recommends the removal of clause 10(7)(c) as the elements of the offence are already encapsulated in clauses 10(7)(b) and (e). Your Committee recommends that the application form should indicate in a statement of truth by the individual who is applying that that individual is not currently enrolled.

Your Committee agrees with the concern expressed that persons who do not knowingly provide incorrect information may be criminalised and recommends the removal of clause 10(8)(b).

Clause 11 - Identity information.

Clause 11(1)

Your Committee notes the concern that too much identity information is being requested which may be a breach of the data minimization principle. *We do not accept the recommendation to reduce the identity information in the Bill. The data set outlined in the Bill strikes a balance between the right to privacy by requiring only minimal information which will still meet the requirements to support a unique identifier while affording easier access to the financial system. Your Committee agrees that the Bill be amended such that:*

- *clause 11(1)(a)(vi) would read “whether the individual is a male or female, as recorded on the individual’s birth certificate”; and*
- *clause 11(1)(a)(vii) would read “principal place of residence, where applicable, and any other places of residence”.*

We accept the recommendation for the birth entry number to be included in the list of reference numbers at clause 11(1)(c).

In relation to clause 11(2), your Committee recommends that the Bill should outline a minimum data set that would be accepted as sufficient to effect the enrolment of an individual. The details of the data set are outlined below:

Biographic Information

Full name, including previous names

Date of birth

Country of birth

Place of birth

Principal Place of residence

Sex

Nationality, for those who are not citizens of Jamaica

Period of residence for those who are not citizens of Jamaica

Marital status

Name of spouse where applicable

Biometric Information

Facial image

Manual Signature for those over eighteen years of age

Finger prints, unless they may not be provided to the standard required, in which case, regulations would detail the procedure to be followed

Numerical Reference

Tax Registration Number

Passport Number

Birth Entry Number

Drivers Licence Number for persons who are licensed to drive

Electoral Identification Number for persons who are enrolled to vote.

Your Committee recommends the removal of the reference to the Finger Prints Act as the Authority will prescribe regulations to treat with the situation where fingerprints cannot be provided to the prescribed standard

Clause 12 - Verification of identity information.

Clause 12(2)

Your Committee notes the proposal to utilize the Tax Registration Number (TRN) for the purposes of verification. *Your Committee does not accept the proposal, as the TRN is to be utilized as an existing Government-issued reference number.*

Your Committee recommends that as evidence of citizenship, a certificate of citizenship issued by the Minister with responsibility for national security will be required for citizens of Jamaica who do not possess a birth certificate and also recommends that the Bill be amended accordingly.

Your Committee notes that Jamaicans who are adopted are not issued with a birth certificate but an Adoption Certificate and agrees the Bill should be amended accordingly.

Your Committee accepts the proposal to include the Jamaica Council for Persons with Disabilities ID/Disability Certificate in clause 12(2) as a verification document.

Your Committee notes the recommendation that more detailed information regarding the verification process be included in the Bill as the verification process does not only refer to the requirement to submit documents but also to engage with other entities in order to assist in verification. *Your Committee does not accept the recommendation, as the Bill adequately addresses the issue of the Authority being empowered to prescribe necessary regulations in relation to fulfilling its functions and the provisions of clause 8.*

Clause 13 - Identity information of participants in Justice Protection Programme.

Your Committee does not accept the recommendation for the legislation to provide more detail on the enrolment of persons who are in the Justice Protection Programme by inserting specific provisions to protect their identities, as the framework for the protection of these individuals falls under the Justice Protection Act which is referenced in the Bill.

Clause 14 - Cancellation of enrolment.

Your Committee notes the concerns expressed regarding the lack of clarity as to the actions to be taken when enrolment is cancelled. *Your Committee recommends that to provide greater certainty, clause 14(2) should be amended to indicate that the Authority must be satisfied that the identity information is inaccurate prior to the cancellation of enrolment.*

Your Committee also notes queries on the retention of identity information upon cancellation of enrolment. *Your Committee recommends that clause 14(5) be amended to indicate that upon cancellation, identity information may be processed pursuant to clause 24 of the Bill and clause 24(1)(h) of the Data Protection Act.*

Your Committee recommends that the fine at clause 14(7) be reduced to \$500,000.00.

Clause 15 - National Identification Number.

Your Committee notes the suggestion that clause 15(2)(a) be amended to indicate that the National Identification Number should not include an identifiable attribute of the person who holds said National Identification Number. *Your Committee does not accept the proposal, as the word "attribute" is synonymous with the word "identifier".*

Clause 16 - National Identification Card.

Your Committee notes the proposal to insert similar penalties from clauses 9(10)(a) and (b) to clauses 16(10) and (11). *We agree to amend the penalties at:*

- *clause 16(10) to a fine of \$3M at Parish Court level or 3 years' imprisonment or both; and*
- *clause 16(11) to a fine of \$3M at Parish Court level or 3 years' imprisonment or both.*

We note the clarification sought on the offence for failure to notify the Authority of loss, damaged mutilated or destroyed National Identification Card at clause 16(12); and the recommendations that this offence be removed or that the Authority should instead state that the National Identification Card is ineffective, cannot be used by the enrolled individual and must be replaced particularly as clause 22(c) requires an individual to surrender the National Identification Card if it is mutilated or otherwise unusable. We also note the recommendation that an offence should only be created where there has been misuse of the National Identification Card. *Your Committee does not accept the recommendations that the offence be amended, as the inclusion is necessary to act as a deterrent. However, we recommend that the fine be reduced to a sum not exceeding \$500,000.00.*

Clause 17 - Use of National Identification Card.

Your Committee notes the recommendation that an offence be created where the National Identification Card is not utilized in the manner specified in clause 17(1). *Your Committee does not accept the recommendation.*

Your Committee recommends that clause 17 (1) be amended to read:

- “(1) An enrolled individual who is issued a National Identification Card may use the Card as a means of proving that individual’s identity, and where such an individual furnishes the Card to a person who requires proof of the individual’s identity–
- (a) the Card shall be accepted as sufficient proof of the individual’s identity; and
 - (b) the person shall not require the individual to produce any additional proof of identity”.

In relation of clause 17(1)(b):

- Your Committee notes the uncertainty that was expressed as to whether individuals can choose to enrol in the National Identification System by using either the National Identification Number or the National Identification Card, or whether they need to enrol for both, *but we agree that the Bill adequately indicates that upon enrolment the individual is assigned a National Identification Number and issued a National Identification Card; and*
- Your Committee notes the query on whether the true effect of the clause is the voluntary use of the National Identification Card by an enrolled individual in the absence of a mandate that current forms of identification will remain valid and accepted for use by accredited third parties. *Your Committee recommends that the clause remain as is.*

Clause 17 - Use of National Identification Card cont'd.

In relation to clause 17(2)(b), *your Committee agrees to amend the penalty to include a term of imprisonment not exceeding three (3) years or both fine and imprisonment.*

Clause 18 - Period of validity of National Identification Card.

In relation to clause 18(1)(c), *your Committee accepts the recommendation that National Identification Cards for all adults be valid for a period of ten (10) years.*

Your Committee notes the query as to the treatment of National Identification Cards returned or surrendered to the Authority but agrees this is an operational consideration which does not need to be addressed by the Bill.

Clause 19 - Content of National Identification Card.

Your Committee deliberated on the modification of this clause to include reference to the digital content of a National Identification Card, that is, security features such as the representation of the enrolled individuals' fingerprints and digital certificates. *We agree to insert the reference to the inclusion of digital content including the minutiae of the fingerprints of the enrolled individuals.*

Your Committee does not accept the proposal to amend clause 19 to remove the ability of the Authority to modify contents of the National Identification Card through regulations as any such change is subject to the approval of the Houses of Parliament.

In relation to clause 19(2), your Committee notes the requests for clarity on the rationale for the inclusion of the caveat "in the absence of evidence to the contrary" in the provision. *Your Committee recommends that the phrase be removed as it is not necessary.*

Your Committee notes that there is no reference to the inclusion of the category 'sex' on the face of the National Identification Card and recommends that the Bill be amended, accordingly.

Your Committee notes the proposal that there is no provision at clause 19(3) for possession as an offence, where an individual is found with National Identification System data in either physical or electronic form, without a lawful excuse. There is also no mention of the computer as a repository or being incidental to the commission of a crime. *Your Committee does not accept the recommendations.*

In relation to clause 19(4), *your Committee agrees to amend the penalty to impose both fine and imprisonment.*

Clause 20 - Cancellation of National Identification Card.

Your Committee accepts the recommendation for notice of intention to cancel a National Identification Card within a time to allow the enrolled individual time to make an appeal against the decision. Your Committee agrees that the Authority should suspend the Card and notify the enrolled individual of the intention to cancel. The enrolled individual may appeal within the specified time, failing which cancellation would take effect.

In relation to clause 20(1), your Committee does not accept the recommendation to expand the list of cancellations to include cancellation of enrolment.

In relation to clause 20(1)(d), your Committee accepts the recommendation for the inclusion of an enrolled individual whose leave to remain in Jamaica has been revoked under the Aliens Act.

Your Committee notes the recommendation that the Authority should be mandated to issue a notice of cancellation within 30 days of cancellation. Your Committee does not accept the recommendation but agrees it should be provided for in the regulations.

Your Committee recommends that the penalty at clause 20(4) should be reduced to \$500,000.00 at the Parish Court level.

Clause 21 - Re-issue of cancelled National Identification Card.

Your Committee accepts the proposal that clause 21 should be re-drafted to clearly indicate that the Authority may re-issue a National Identification Card where the reason for the cancellation has been rectified or no longer exists.

Clause 22 - Obligation to surrender National Identification Card.

Your Committee notes the observation that there is no timeline within which an individual must surrender the National Identification Card but does not recommend an amendment to the clause, as the Interpretation Act indicates that, in the absence of a stated time, an act should be carried out as soon as possible in the particular circumstances.

Part IV – Use and Security of Information Stored in the National Databases

Clause 23 - Security of information.

Your Committee notes the recommendation to include specific information regarding the features of the security system; and that the Bill should outline an adherence to, or mention, certain international standards that deal with security controls such as the ISO/IEC 27000 series. Your Committee does not accept the recommendations, as it would not be appropriate to insert these details due to the frequently changing nature of technology and including such information increased the risk of a security breach and degradation of the security framework by persons interested in doing so.

Your Committee notes and accepts the recommendation to have the term “virus” subsumed in the malware grouping at clause 23(b)(i).

Clause 24 - Disclosure of identity information.

Your Committee notes the proposal that clause 24 should provide greater detail of the disclosure regime: how it is to be managed and the duty of care which the receiving party must observe. Your Committee also notes the proposal that the term "national security" be defined in the Bill. *Your Committee does not accept that it is necessary to define the term "national security" but notes that it is necessary to provide for the giving of directions on the treatment of identity information by the Commissioner of Police and relevant officers. Your Committee recommends the insertion of additional guidance to the judiciary in a manner similar to clause 11(2) of the Interception of Communications Act in order to strengthen the protection afforded to an enrolled individual. Your Committee notes that such disclosure is subject to the Data Protection Act, as well as the secrecy and confidentiality provisions under the Bill.*

Your Committee does not accept the suggestion that particular law enforcement agencies apart from the Commissioner of Police should be able to request disclosure, *as the policy intent is to allow disclosure in the most minimal manner and instances. We agree that the clause should remain as is, to maintain a balance between the privacy of the individual and the object of the Bill that speaks to, among other things, protecting identity information. We note that other agencies would be able to obtain this information through the Commissioner of Police who is responsible for issues of national security.*

Your Committee notes the concerns regarding the incorporation of disclosure provisions from other laws referenced in clause 24(1)(c). After extensive consideration of this clause due to the concerns expressed about its "open-ended" nature, your Committee agrees the clause should remain as is.

In relation to clause 24(5), we note the concern about an application for disclosure made *ex parte* and the question of whether the person affected should be informed to make representation pursuant to the Data Protection Act. *Your Committee agrees to insert a provision that serves to notify the individual after the order has been granted, subject to any conditions imposed by the judge.*

In relation to a query on how an enrolled individual would be assured of the removal or destruction of the information from a relevant entity or investigation in cases of no conviction, *your Committee agrees to insert a provision in clause 24(5) to notify the enrolled individual, before the expiration of the three-month period of the impending destruction that identity information has been disclosed and will be destroyed.*

In relation to clause 24(5)(c), your Committee deliberated on the rationale for "eight years". However, *your Committee agrees the period in the clause should be amended to read three (3) years.*

Your Committee agrees to delete the words "without notice" after the word "shall" in the third line of clause 24(9) in order to notify the enrolled individual of the application to extend the time for retention of their identity information.

In relation to clause 24(11), your Committee recommends that the three-month review period in the clause should be retained.

Clause 25 - Requests for information or for authentication and verification services.

Your Committee notes the recommendation for the publication of a registry of accredited third parties but recommends that it be placed in the regulations, if necessary.

Your Committee agrees to amend clause 25(5) to restrict reference to identity information to fingerprints.

Your Committee agrees to amend clause 25(6)(b) to read “a record of all the requests under this section for verification of identity information”.

Your Committee recommends the insertion of a provision to allow the collection of anonymized statistical data.

Part V – Appeal and Oversight

Clause 26 - Appeal Tribunal.

In relation to clause 26(2):

- *your Committee agrees that it is necessary to allow applicants, enrolled individuals and previously enrolled individuals to appeal any decisions of the Authority.*
- *your Committee does not agree it is necessary for provision to be made for appeals to be brought on behalf of enrolled individuals who cannot act on their own behalf as this is otherwise provided for in law.*
- *your Committee does not agree with the recommendation to increase the time to file a notice of appeal to 90 days.*

In respect of clause 26(6), *your Committee does not agree that there should be a fixed time frame for the Appeal Tribunal to provide a written copy of its decision(s).*

Your Committee notes but does not agree with the recommendation that an alternative resolution procedure should be utilized instead of an Appeal Tribunal.

Clause 27 - National Databases Inspectorate.

Your Committee reviewed the oversight structure and recommends the following :

- *the oversight body should be known as the National Identification and Registration Inspectorate;*
- *the Inspectorate should be a Commission of Parliament;*
- *the Electoral Commission of Jamaica should carry out the functions of the Inspectorate;*
- *the provisions for functions which are also to be carried out by the Information Commissioner under the Data Protection Act should be removed; and*
- *additional details should be provided about the complaints procedure.*

Part VI – Offences and Enforcement

Clause 28 - Special provisions in respect of offences.

Your Committee recommends that the fine at clause 28(1) be reduced to \$500,000.00.

Clause 29 - Powers of search and seizure.

Your Committee notes the recommendation that the word “premises” be defined more widely to include any place or conveyance so that a wide range of locations/areas can be searched to include place, receptacle, or conveyance. This accords with the proposed amendment in the *Criminal Justice (Suppression of Criminal Organizations) (Amendment) Bill, 2021* where the word "premises" would be replaced by the word "property" as defined by the *Proceeds of Crime Act*. *We recommend that clause 29(1) should be amended to provide that items found at the premises may be searched.*

Clause 29(2)(c)

Your Committee notes the concern in relation to the provision for legal professional privilege and *recommends that the form of warrant be prescribed in regulations and that it set out directions as to the treatment of items subject to legal professional privilege.*

Clause 29(2)(d)

Your Committee notes but does not accept the proposal to remove the words “describe in general terms the kinds of items authorized to be seized” as those words do not limit the scope of the search.

Clause 29(3)(a)

Your Committee notes the concern that the Bill does not prohibit the copying of items subject to legal professional privilege and recommends that the sub-clause be amended to address this concern.

Clause 29(3)(b)

Your Committee accepts the recommendation that this clause should be amended to state that no item should be seized which may compromise or disrupt any aspect of Jamaica’s information or communications technology infrastructure.

Clause 29(5)

Your Committee notes but does not accept the recommendation to remove the requirement to obtain the approval of a judge in order to release an item seized, as the nature and circumstances of the seizure may require judicial determination.

Part VII - General

Clause 30 - Secrecy and confidentiality.

Clause 30(1)

Your Committee notes but does not accept the recommendation that it is necessary to include “any other law” in the closing words of this clause.

Clause 30 - Secrecy and confidentiality cont'd.

Clause 30(2)

Your Committee assessed the offence at clause 30 and *recommends that the offence be triable:*

- *at the Parish Court level with penalties of a fine up to \$3M and a term of imprisonment not exceeding three (3) years or both; and*
- *at the Circuit Court level with penalties of a fine and a term of imprisonment not exceeding ten (10) years or both.*

Clause 31 - Protection from liability.

Your Committee notes the concern that the term “officer” is not defined, but does not agree that the term needs to be defined. Your Committee also notes that the proposed amendments resulting from the recommended organisational structure utilises the term “employee”.

Clause 32 - Imposition of fees.

Your Committee agrees with the recommendation to include a reference to clause 16(6).

Your Committee does not accept the proposal that there should be a minimum list of services provided free of cost, as such matters will be addressed in the regulations.

Clause 33 - Regulations.

Your Committee notes the concerns that there is no framework set out in the legislation regarding the destruction of identity information and recommends that this clause be amended to specifically allow for the prescription of such frameworks.

Your Committee notes the proposal for a requirement for the regulations made to be preceded by parliamentary debate. *Your Committee does not accept the proposal and makes reference to clause 33(3) that states that the regulations are subject to parliamentary scrutiny by way of affirmative resolution.*

Your Committee recommends an enabling provision for the form of warrants to be issued under clause 29(1). The warrant should include the minimum content of any directions to be issued pursuant to clause 29(1)(c).

Clause 35 - Review of Act.

Your Committee notes the recommendation for a periodic review of the fines and penalties, but does not accept this recommendation as the legislation must be periodically reviewed in its entirety.

Clause 36 - Transitional.

Your Committee notes the concern regarding the status of staff under the transitional provision but notes that this is an administrative issue and that the law can only ensure the provision of an appropriate enabling framework.

In our deliberations, we also note that the officers employed to the Registrar General's Department, an Executive Agency under the Executive Agencies Act, are not captured in the definition of the 'former department' in clause 36(11) and recommend that the clause be amended accordingly.

Clauses 34, 37 and 38.

Your Committee notes there are no proposals for the clauses 34, 37, 38, and agrees these clauses should remain as is.

SCHEDULES.

First Schedule

Your Committee agrees that subsequent to recommendations for a new governance structure for the Authority and recommends that the First Schedule be amended as follows:

Executive Director

The Executive Director will have responsibilities for the day-to-day operations of the Authority. The Executive Director should be engaged for renewable periods of three years upon successful annual evaluations.

Second Schedule

Appeal Tribunal

Your Committee notes the concern that each Appeal Tribunal panel is given broad discretion to regulate its proceedings which may create uncertainty. Your Committee agrees that the Bill should be amended so that the Tribunal determines the procedure for both panels.

Your Committee agrees with the recommendation that there should be clear provision for all instances of leave of absence and the appointments to be made during that period of leave.

Third Schedule

The National Identification and Registration Inspectorate

Your Committee accepts the recommendation for the role of the Inspectorate to be carried out by the Electoral Commission of Jamaica appointed under the Electoral Commission (Interim) Act and agrees that the Third Schedule be amended accordingly. The amendments are to provide that the Inspectorate reports to the Parliament by way of Speaker of the House of Representatives and the President of the Senate.

Fourth Schedule

Amendments to Other Enactments

Your Committee notes the proposals for amendment to the Fourth Schedule, as follows:

The Aliens Act

Your Committee recommends amendment to section 13 of the Aliens Act to replace the word ‘citizen’ with the appropriate term for individuals who are not citizens; and to require that the Chief Immigration Officer give information to the Authority on the immigration status of non-citizens.

The Data Protection Act

Your Committee recommends amendment to section 76 of the Data Protection Act such that the Authority be excluded from the two-year moratorium under that Act.

The Electoral Commission (Interim) Act

Your Committee recommends the amendment to sections 5 and 6 of the Electoral Commission (Interim) Act to provide for oversight to the entity responsible for national identification.

The Immigration Restriction (Commonwealth Citizens) Act

Your Committee recommends amendment to the Immigration Restriction (Commonwealth Citizens) Act for the Minister with responsibility for national security to be required to inform the Authority where the leave granted to a Commonwealth citizen to remain has been revoked.

The Jamaican Nationality Act

Your Committee recommends amendment to the Jamaican Nationality Act to include the requirement for the Minister with responsibility for national security to inform the Authority on the registration of a declaration of renunciation of citizenship of Jamaica.

The Registration (Births and Death) Act

Your Committee notes the concerns regarding the power of the Registrar to determine the form of certificates but does not recommend amendment to the Registration (Births and Death) Act.

OTHER RECOMMENDATIONS

The Committee recommends consideration of greater integration with other public bodies such as the Passport Immigration and Citizen Agency (PICA).

In light of the number of amendments that are being proposed to the Bill, we recommend that the Bill be withdrawn, and a new Bill be tabled reflecting the amendments as outlined in the list of amendments, which is appended to the Report (See Appendix III).

4. ACKNOWLEDGEMENTS

Special recognition is extended to the staff of the following entities for the technical guidance provided to the Committee throughout its deliberations: Office of the Prime Minister/ National Identification System Secretariat; Office of the Parliamentary Counsel; Attorney-General's Chambers; and Legal Reform Department.

- (c) establish databases to be known as the National Databases, consisting of –
 - (i) Civil Registration Databases comprising all information collected for civil registration by the Registrar-General; and
 - (ii) National Identification Databases comprising all identity information collected by the National Identification and Registration Authority;

- (d) provide for the characteristics, assignment and use of a unique National Identification Number to be assigned to each enrolled individual;
- (e) provide for the issue of a National Identification Card to each enrolled individual; and
- (f) provide for the discharge of the statutory functions of the Registrar-General by an office established within the Authority, under the oversight of the Authority and to make consequential amendments to the Registration (Births and Deaths) Act accordingly.
